COMMENTS

"Dan Bolena was a great speaker, and I hope the students remember at least a few points on presentation skills."

"Business Week was great. I love seeing different groups of kids come together. I enjoy seeing the kids' minds change from school to business and come up with their own ideas. I look forward to returning next year."

"This is great for the students to work with peers they usually don't have to work with, something students need to understand for the real world. I am also surprised every year at the students who do not excel at traditional school, but shine and take leadership roles during Business Week."

"I think the trade show/commercial were most beneficial. It is great to get the students working together as well as learning to talk to people in the community. This builds skills that they can take with them for their future."

"The students worked great together and the speakers were excellent."

"It was rewarding to watch students acknowledge their strengths and weaknesses and find qualities in others to build a balanced team."

"I this this is a great program that teaches students valuable concepts they will need for after graduation. Students learn lessons in working together, carrying out new business tasks, and how to professionally carry themselves."

"Watching the communication/teamwork in my group amongst students who don't typically interact with each other...it's always the most rewarding moment for me each year, never fails. It feels good to watch them work together."

"Seeing kids come out of their comfort zone and do things they would not have tried to do otherwise."
