“My advisors were extremely beneficial and helpful in contributing to our manufacturing, decision process, and overall motivation in our team.”

*“I learned that communication is a vital part in learning how to manage a big group. Everyone is going to have conflicting opinions most likely, and it’s up to you to make compromises.”*

*“I talked to people and worked with people that I never really talked to before or worked with, so I am so happy that we were able to participate this year.”*

*“I learned that even though it may not always be easy to work with other people, it is necessary to maintain a business-like work environment.”*

*“I wish it wasn’t over and I believe that all students would love this program and benefit from it.”*

“It’s not easy to become a business owner at all, but I learned how I could be a good business owner.”

*“I learned to keep myself open to new experiences and people. I’d do this all over again, because it was a lot of fun and I feel like we made strong group connections. Our team building went great, we learned a lot about each other and broke social barriers.”*
