“I love getting to know the kids, see them embrace their strengths, and work with other people they may not even know.”

“I am so proud of how respectful, professional, and collaborative my team was this year. They rallied together during the conception of our product, getting teammates to the Business Week Boutique, and maintaining high morale until our final company meeting.”

“As a former student and current advisor, I am continuously amazed at how this week brings together students from various backgrounds and their ability to work toward a collective goal.”

“It’s so rewarding over the course of the experience to see students, who did not want to be involved in school, start contributing and seeing the value in being part of something bigger than themselves.”

“I really enjoy seeing the students get more invested as the week goes on. You can see such a difference in the students from the start of the week to the end in terms of confidence and enjoyment.”

“It’s always fun seeing the kids grow, learn, and ‘spread their wings’.”

“I teach special education and it is so nice to be able to experience a different group of students throughout the week. I don’t often see kids that are dedicated and want to work hard, so being able to witness it is very rewarding. Also being able to see the kiddos that I do teach perform above their ability is awesome!”

“I really enjoy being a part of Business Week. Being able to interact with a different group of kids than I normally have is awesome! Seeing them think and problem solve is so rewarding.”
